Hidden Leaf Networks LLC — Detroit, Michigan — hiddenleafnetworks.com

SOURCES SOUGHT RESPONSE

Date: November 07, 2026 **Reference:** VA-26-00039517 **Subject:** Enterprise Digital Government Enablement (EDGE) **NAICS Code:** 541512

To: Daniel Schlisserman **Email:** daniel.schlisserman1@va.gov

From: Carl E. Jones III, Founder & Principal Hidden Leaf Networks, LLC Detroit, Michigan carl@hiddenleafnetworks.com https://www.hiddenleafnetworks.com

1. Company Identification

Field	Value
Legal Name	HIDDEN LEAF NETWORKS, LLC
CAGE Code	26PF4
UEI	X6B2SPZ64KP3
SAM.gov Status	Active
Business Size	Small Business
Business Type	Single-Member LLC
Primary NAICS	541512 — Computer Systems Design Services
Additional NAICS	541519, 541511
Location	Detroit, Michigan
Year Established	2025

2. Capability Overview

Hidden Leaf Networks, LLC (HLN) is a Detroit-based small technology business providing enterprise software development, AI/ML systems integration, digital transformation, and IT modernization services. HLN combines deep technical expertise in systems architecture, test automation, and AI-powered workflow orchestration to deliver scalable, automation-first solutions aligned with federal digital services requirements including FITARA compliance and Continuous Diagnostics and Mitigation

(CDM) program objectives.

Core Capabilities:

- Enterprise digital transformation and IT modernization (FITARA-aligned)
- AI-powered workflow orchestration and intelligent automation
- Secure application development (Python, TypeScript, FastAPI, Next.js)
- Systems integration, API development, and cloud-native architecture
- Software quality assurance, automated testing, and DevSecOps
- Continuous monitoring integration and CDM-compatible tooling

HLN is actively developing **HLN Relay**, a collaborative cybersecurity workflow platform with a 3-layer architecture (UI, orchestration engine, and AI governance layer) — directly applicable to EDGE's enterprise-scale digital enablement requirements.

3. Relevant Experience

HLN is a newly established LLC. While the company does not have federal contract past performance, our principal brings over 12 years of directly relevant experience in enterprise-scale systems — the kind of environment EDGE is designed to modernize.

Carl E. Jones III — Founder & Principal Engineer

- 12+ years in software QA, test automation, and enterprise systems engineering
- Ford Motor Company — enterprise-scale test automation across multi-system manufacturing environments; direct analog to large-agency digital transformation programs
- Full-stack application development with modern federal-compatible frameworks (Python, TypeScript, React, FastAPI, Docker, Kubernetes)
- ARIA Platform — multi-model AI orchestration system with 10-agent registry, 3 live providers, 600+ automated tests; demonstrates enterprise-grade system design discipline
- HLN Relay — collaborative cybersecurity SaaS with 3-layer architecture supporting multi-role workflows, directly analogous to enterprise digital enablement platforms
- Scroll CLI — multi-engine AI routing platform (5 providers) demonstrating systems integration across heterogeneous service environments
- Production web platform delivery for nonprofit and civic organizations (Generous Giving, Temple Soul Care, Christ Temple Baptist Church)

4. Teaming Arrangements

HLN is open to teaming arrangements with large or small businesses to provide the full scope of services required. HLN's cybersecurity, QA automation, and AI/ML capabilities complement larger integrators' infrastructure and program management strengths.

5. Questions and Concerns

1. Will this requirement be set aside for small business?
2. What is the anticipated contract vehicle (IDIQ, BPA, standalone)?
3. Is there an incumbent contractor, and if so, what is the current contract value?

6. Interest Level and Set-Aside Recommendation

Hidden Leaf Networks, LLC expresses **strong interest** in the requirements described in VA-26-00039517. HLN is a registered small business and believes this requirement is suitable for a **Total Small Business Set-Aside** under NAICS 541512.

HLN is prepared to provide additional information, participate in industry days, or discuss capability demonstrations as requested.

Respectfully submitted,

Carl E. Jones III
