Hidden Leaf Networks LLC — Detroit, Michigan — hiddenleafnetworks.com

SOURCES SOUGHT RESPONSE

Date: November 07, 2026 **Reference:** 650978c0876c4ea994b6976213322974 **Subject:** Healthcare Data Auditing Billing and Coding Optimization **NAICS Code:** 541519

To: Michael Frank **Email:** Michael.Frank@va.gov

From: Carl E. Jones III, Founder & Principal Hidden Leaf Networks, LLC Detroit, Michigan carl@hiddenleafnetworks.com https://www.hiddenleafnetworks.com

1. Company Identification

Field	Value
Legal Name	HIDDEN LEAF NETWORKS, LLC
CAGE Code	26PF4
UEI	X6B2SPZ64KP3
SAM.gov Status	Active
Business Size	Small Business
Business Type	Single-Member LLC
Primary NAICS	541512 — Computer Systems Design Services
Additional NAICS	541519, 541511
Location	Detroit, Michigan
Year Established	2025

2. Capability Overview

Hidden Leaf Networks, LLC (HLN) is a Detroit-based small technology business providing AI/ML systems integration, automated data auditing, software quality assurance, and secure application development. HLN combines deep technical expertise in test automation, data pipeline engineering, and AI-powered workflow orchestration to deliver efficient, audit-ready solutions in regulated environments — including HIPAA/HITECH-covered workloads.

Core Capabilities:

- AI/ML system architecture for healthcare data analysis, anomaly detection, and coding pattern recognition
- Automated auditing workflows with compliance reporting and audit trail systems
- Data pipeline development and ETL processing for structured clinical and billing datasets
- Software quality assurance and validation testing in regulated data environments
- ICD-10 / CPT code validation logic and revenue cycle management tooling
- HIPAA/HITECH-aware secure application development and data handling practices

3. Relevant Experience

HLN is a newly established LLC. While the company does not have federal contract past performance, our principal brings over 12 years of directly relevant experience in regulated, high-stakes quality environments with direct transferability to healthcare data integrity and audit workflows.

Carl E. Jones III — Founder & Principal Engineer

- 12+ years in software QA, test automation, and systems engineering — with a disciplined defect-detection methodology directly applicable to billing code auditing and claims data validation
- Ford Motor Company — large-scale QA across complex multi-system environments; the same structured validation discipline applies to ICD-10/CPT coding accuracy and revenue cycle audit workflows
- ARIA Platform — AI orchestration system with multi-model routing and autonomous agent pipelines; pattern detection and anomaly flagging capabilities applicable to billing irregularity identification
- Scroll CLI — multi-provider AI routing with structured output validation; directly applicable to building audit automation against healthcare billing datasets
- Full-stack application development with HIPAA-compatible frameworks (Python, TypeScript, FastAPI, Docker) with emphasis on data integrity, structured logging, and audit trails
- Temple Soul Care — healthcare ministry web platform delivered with HIPAA-conscious design; demonstrates familiarity with healthcare operational context

4. Teaming Arrangements

HLN is open to teaming arrangements with large or small businesses to provide the full scope of services required. HLN's cybersecurity, QA automation, and AI/ML capabilities complement larger integrators' infrastructure and program management strengths.

5. Questions and Concerns

1. Is this requirement anticipated to be set aside for small business?
2. What volume of records is anticipated for auditing?
3. Are there specific compliance frameworks (e.g., HIPAA) that apply?

6. Interest Level and Set-Aside Recommendation

Hidden Leaf Networks, LLC expresses **strong interest** in the requirements described in Healthcare Data Auditing Billing and Coding Optimization. HLN is a registered small business and believes this requirement is suitable for a **Total Small Business Set-Aside** under NAICS 541519.

HLN is prepared to provide additional information, participate in industry days, or discuss capability demonstrations as requested.

Respectfully submitted,

Carl E. Jones III
