SOURCES SOUGHT RESPONSE

Date: November 07, 2026 **Reference:** dc5a750e1110415ba455369c646c62b4 **Subject:** Replacement Model for VA.gov **NAICS Code:** 541519

To: Sean Doyle **Email:** sean.doyle@va.gov

From: Carl E. Jones III, Founder & Principal Hidden Leaf Networks, LLC Detroit, Michigan carl@hiddenleafnetworks.com https://www.hiddenleafnetworks.com

1. Company Identification

Field	Value
Legal Name	HIDDEN LEAF NETWORKS, LLC
CAGE Code	26PF4
UEI	X6B2SPZ64KP3
SAM.gov Status	Active
Business Size	Small Business
Business Type	Single-Member LLC
Primary NAICS	541512 — Computer Systems Design Services
Additional NAICS	541519, 541511
Location	Detroit, Michigan
Year Established	2025

2. Capability Overview

Hidden Leaf Networks, LLC (HLN) is a Detroit-based small technology business providing full-stack web platform development, digital service delivery, software quality assurance, and AI/ML integration. HLN delivers production web platforms built to accessibility and security standards — including Section 508 compliance, USWDS design system alignment, and VA Design System conventions.

Core Capabilities:

- Full-stack web application development aligned to USWDS and VA Design System standards
- Section 508 accessibility compliance — semantic HTML, ARIA attributes, keyboard navigation, screen reader testing
- Secure application development with security-first architecture (Next.js, TypeScript, React, FastAPI)
- AI-powered content management, workflow automation, and intelligent service delivery
- Software quality assurance and automated testing (unit, integration, accessibility)
- Cloud-native architecture, CI/CD pipelines, and DevOps
- User experience design and digital service delivery for public-facing platforms

3. Relevant Experience

HLN is a newly established LLC. While the company does not have federal contract past performance, our principal brings over 12 years of directly relevant experience in production web platform delivery, quality assurance, and accessible digital service design.

Carl E. Jones III — Founder & Principal Engineer

- 12+ years in software QA, test automation, and application engineering
- Delivered multiple production web platforms for nonprofit and community organizations — directly analogous to public-facing digital service delivery:
- **Generous Giving** (generousgiving.org) — nonprofit food pantry platform with public-facing forms, organizational content, and partner portal; production deployed
- **Temple Soul Care** — healthcare ministry web platform; production deployed with accessibility-conscious design
- **Christ Temple Baptist Church** — multi-page organizational web platform; production deployed
- Ford Motor Company — enterprise-scale QA and validation; discipline applied to web platform testing and release readiness
- Full-stack development with USWDS-compatible frameworks (Next.js, TypeScript, React, Tailwind CSS, FastAPI, Docker)
- Section 508 accessibility implementation — semantic HTML structure, ARIA landmark usage, keyboard navigation, responsive design

- HLN builds production web platforms backed by security-first architecture principles; every delivered project incorporates secure coding practices, HTTPS enforcement, and structured deployment pipelines

4. Teaming Arrangements

HLN is open to teaming arrangements with large or small businesses to provide the full scope of services required. HLN's cybersecurity, QA automation, and AI/ML capabilities complement larger integrators' infrastructure and program management strengths.

5. Questions and Concerns

1. **1.** What is the anticipated scope — full replacement or incremental modernization?
2. **2.** Is this requirement anticipated as a small business set-aside?
3. **3.** What is the target technology stack for the replacement platform?

6. Interest Level and Set-Aside Recommendation

Hidden Leaf Networks, LLC expresses **strong interest** in the requirements described in Replacement Model for VA.gov. HLN is a registered small business and believes this requirement is suitable for a **Total Small Business Set-Aside** under NAICS 541519.

HLN is prepared to provide additional information, participate in industry days, or discuss capability demonstrations as requested.

Respectfully submitted,

Carl E. Jones III
